STAT

SUBJECT: Request for Briefing from Permanent
Subcommittee on Investigations, Senate
Committee on Governmental Affairs

1. As I discussed with you on the telephone two weeks ago, Glenn A. Fry, Investigator with the subject Subcommittee, requested (by telephone) task force reports on recent significant espionage cases. Following your guidance, I explained to Mr. Fry that these evaluations were classified, comprehensive, very detailed and voluminous.

2. Mr. Fry agreed to state the request more specifically in writing. He also agreed that an informal, unclassified briefing would satisfy the needs of the Subcommittee. In paragraph two of the attached letter from the Subcommittee, the request is stated, "to discuss any findings and recommendations relating to deficiencies, problems or other matters that pertain to personnel security." In essence, the Subcommittee is interested in what deficiencies in the personnel security program contributed to the initial success of an employee and/or contractor in violating national security; and, what changes in the personnel security program were implemented as a result of the Agency's analysis of the security breaches.

3. I recommend that one or two representatives from the Office of Security provide an unclassified overview of the deficiencies that were discovered and the changes in the Agency's personnel security program that were made. Please let me know if this is possible and I will arrange a time and place for the briefing.
